SKILLS

Languages:	C++,Java(Basic),JavaScript(ES6+)
Frontend:	Next.js,React.js,HTML5,CSS3,Tailwind CSS
Backend:	Node.js, Express.js, RESTful APIs, Authentication(JWT),Session Management
Databases:	MongoDB, MySQL, JSON-based Storage
Tools/Platforms:	Git, GitHub, Postman, Vercel, GitHub Pages
Soft Skills:	Analytical Thinking, Task Prioritization, Adaptability

PROJECTS

FreakyTravellers- Trip Budget optimizer and Planner: Link	Feb' 26
• Built a travel budgeting platform to search and book transport, hotels, and restaurants within a set budget. • Implemented JWT + email OTP authentication and optimized server side logic for smart budget allocation. • Designed a responsive and interactive UI with real-time recommendations across Multiple destinations. • Implemented global state management using Zustand for optimized client-side performance. • Tech Stack: Next.js, Node.js, Express.js, MongoDB, Razor pay, Zustand.	
Complaint Box – Online Feedback & Issue Management System: Link	Nov' 25
• Developed a full-stack complaint management system enabling users to submit, track and manage complaints efficiently. • Crafted a C++ server-side module to handle complaint submissions and store data in JSON format. • Optimised file-based storage for persistence and ensured data integrity across multiple complaint sessions. • Deployed the project using GitHub Pages, providing an easily accessible and functional prototype for showing. • Tech Stack: C++, JavaScript, HTML, CSS, JSON.	
Bid For It - Auction Site For bidding: Link	Apr' 25
• Engineered a fully functional online auction platform allowing users to bid, list, and purchase items in real time. • Implemented secure authentication and authorization for user login and registration. • Designed a responsive and interactive UI using CSS and JavaScript to enhance user experience throughout the site. • Ensured data consistency and optimized server-side logic for real-time updates during bidding sessions. • Tech Stack: PHP , JavaScript, CSS, MySQL.	

TRAINING

Logic Building and Programming in DSA: Link	Jun' 25 – Aug' 25
• Completed hands-on training in logic building and data structures and algorithms using C++. • Worked with arrays,linked lists,stacks,queues,and sorting/searching algorithms efficiently. • Anazlyed time and space complexities of different algorithms for performance optimization. • Applied algorithms to real-world scenarios with emphasis on designing efficient solutions.	

CERTIFICATES

• CRUD Operations in MongoDB Certificate	Jul' 25
• Fundamentals of Network Communication Certificate	Nov' 24
• The Bits and Bytes of Computer Networking Certificate	Sep' 24

EDUCATION

Lovely Professional University.	Phagwara, Punjab
• <i>Bachelor of Technology</i>	Aug' 23 – Present
•Computer Science and Engineering: CGPA:7.49	
GGPS Public School	Bokaro, Jharkhand
•Intermediate	Mar' 20 – May' 22
•PCM; Percentage:75.2%	
Ramkrishna Vivekananda Vidyamandir	Deoghar, Jharkhand
•Matriculation	Mar' 19 – May' 20
•Percentage:90.04%
